VENTURE PHILANTHROPY SPOTLIGHT

17. NOVEMBER 2016 6.00-8.00 p.m.

Venture Philanthropy is on the rise in Europe. While European societies need new and innovative models to tackle societal issues, social enterprises and social purpose organizations lack stable funding, capacity and partnerships to take up their own, ever-increasing challenges. This is where venture philanthropy and social investment come in. Venture philanthropy offers an effective, high-engagement and long-term approach to supporting social entrepreneurs in generating social impact.

Please join an evening with **Martin Vogelsang**, Germany Country Representative at European Venture Philanthropy Association (EVPA), and **Philipp Hölscher**, Head of Analysis and Research at Phineo, Germany's first social impact rating agency, to discuss current practices, trends and the future of venture philanthropy in an exclusive environment.

You are cordially invited to attend the
